

Dear FCC I am writing to you in regards to K-Love. Please do not take this station away from me. This station is a joy to me and my family. I feel this station serves a great need to the people in my community because we need this kind of possitive influence in our lives something that is uplifting and good for our children. Why would you want to take something like this away from us that we are so use to enjoying. This would be wrong not only to me but for the area in which I live. This is kinda taking our right to listen to what we want when you take it away. So in concluding please don't take my blessing away. Thank You very much for your time Tonya Jacobs
